INDEX 1975-1986

Volumes I-XII

Edited by Jake Wiens

compilers - Cindy Riediger and Peter Hildebrand

typesetter - Eileen Klassen Hamm

In 1987 the *Mennonite Historian* became a joint publication of the Mennonite Heritage Centre and the Centre for Mennonite Brethren Studies, both in Winnipeg. In a sense then the December 1986 issue concludes the first phase of this periodical during which it was published wholly under the auspices of the History-Archives Committee of the Conference of Mennonites in Canada. For this reason it was chosen as the cutoff date for purposes of preparing an index.

The **author index** includes the titles of all major articles arranged in alphabetical order according to the surname of the first author listed with each article. Very brief articles (ca. 5 lines or less) were included only if their content was considered particularly significant.

The **subject index** for the most part identifies articles only by the number after which they are listed in the author index. Reports of organizations and of certain events, publication notices, acquisition lists, and other brief notes were not indexed by author but appear under their respective subject categories only in the subject index.

In about a dozen cases corrections to published articles were printed in a subsequent issue. These are noted after the original article entries in parentheses.

Book reviews are listed in alphabetical order according to author of the book. A separate list of **reviewers** is included.

Photographs and illustrations are divided into those of a historical nature and those which are current, the latter used mainly to accompany news reports.

Cindy Riediger and Peter Hildebrand, students at Canadian Mennonite Bible College, prepared the first draft of this index under the direction of the *Historian* editor, Lawrence Klippenstein, in 1982 and 1987. Jake Wiens, a regular volunteer at Mennonite Heritage Centre, checked all of the entries and, in consultation with Adolf Ens, made major revisions in the arrangement of materials. The contribution of each one is gratefully acknowledged.

Adolf Ens
